

Lab - 8 / 08-01-24

- Write a program which creates two threads, one thread displaying "BMS College of Engineering" on every ten seconds and another displaying "CSE" on every two seconds.

Class BMSCE extends Thread {

public void run() {

for (int i=0; i<10; i++) {

System.out.println("BMSCE");

try {

this.sleep(10000); }

Catch (InterruptedException e) { System.out.println(

System.out.println(i); } }

Class CSE extends Thread {

public void run() {

for (int i=0; i<10; i++) {

System.out.println("CSE");

try {

this.sleep(2000); }

Catch (InterruptedException e) {

System.out.println(e); }

} }

public class MyMain {

public ~~class~~ static void main (String[] args)

BMSCE obj1 = new BMSCE();

Cse obj2 = new Cse();

obj1.start();

obj2.start();

System.out.println("Senthosh S 2023 BMS02586")

} }

output
